

Perry's FAMOUS PORK CHOP

HEATING INSTRUCTIONS FOR ONE LUNCH-CUT CHOP

OVEN (RECOMMENDED)

1. Thaw completely.
2. Preheat oven to **325°F**.
3. Remove the pork chop from plastic casing.
4. Place pork chop on aluminum foil, pour 2 tbsp of water at base of the chop, and wrap loosely to create a dome.
5. **Bake for 30 minutes.**
6. Remove from oven, open the dome, and spread Perry's Steak Butter on top of chop. **Close the dome and let it rest for 5 min.** Then serve & enjoy!

MICROWAVE

1. Thaw completely.
2. Cut a slit in the top of the plastic casing.
3. Place pork chop with its plastic casing in microwave on high heat for **4 ½ minutes.**
4. Spread Perry's Steak Butter on top of the chop and let stand for one minute before serving.
